About Alpine Grove Partners

Alpine Grove Partners (“Alpine Grove”) is an international real estate investment firm focused on establishing specialized operating companies to invest in real estate assets in Western Europe, Japan and North America. The Firm is privately held and managed. The team has a tenured track record investing through multiple market cycles and extensive experience targeting complex, undervalued situations.

Since inception, Alpine Grove Partners has selectively invested in more than \$23 billion of real estate assets across a diverse range of sectors through commingled funds, co-investment vehicles and separate accounts. Alpine Grove has offices in London, Amsterdam, Madrid, Frankfurt, Milan, Tokyo, New York, and Los Angeles. The Firm’s investment approach centers on rigorous top-down macroeconomic analysis and a determination to invest with regard for long-term intrinsic value, often leading to contrarian or countercyclical investment decisions.

The Firm conducts itself with the highest regard for its constituent audiences; investors, employees, operating partners and local market participants. The culture is defined by its core values: stewardship, integrity, transparency, leadership, excellence and teamwork.

Internship Opportunity

Alpine Grove Partners is seeking an intern to work with the Fundraising team in New York or Los Angeles. Alpine Grove’s ideal candidate would like to join a fast-paced team, is highly numerate, and has an interest in real estate private equity. An intern might be tasked with special projects related to marketing presentations, investor intelligence or investment updates. Start and end dates are flexible, but an ideal commitment would last at minimum 8 weeks. For legal reasons, we can only consider applicants with a valid U.S. work authorization.
